In Association with the Sterling Stamp Co. of Boston

Within these pages we proudly present one of the finest collections of Early Americana Numismatica ever assembled.

This collection was formed by Mr. C. H. Stearns of Wakefield, Mass. primarily in Boston and New York which were America's Numismatic capitals during the 1880's and 1890's. This was unquestionably the greatest era in U.S. numismatics. Among Mr. Stearns' contemporaries and advisors were the historically significant names of Mickley, Parmalee, Crosby and Appleton. The coins were exhibited at the Boston Numismatic Society meetings and elsewhere during this period and we find a number of references to it in the American Journal of Numismatics and other early publications.

In the journal "Numismatics of Massachusetts", published by the Mass. Historical Society, the author, Mr. Malcolm Storer stated in the preface, "I wish to express my thanks to Mr. H. A. Gray and Mr. F. H. Shumway who have been indefatigable in their search for specimens and to **Mr. C. H. Stearns** whose unrivaled knowledge of the Mass. Colonial Coinage has been of great assistance."

The collection then passed through two generations of the Stearns family ending with Mr. George M. Stearns, the grandson of the original owner. Mr. G. M. Stearns continued to acquire superior specimens whenever available. With the demise of Mr. G. M. Stearns ended a great family tradition in New England numismatics.

In accordance with the wishes of the family, this collection is now being offered to the numismatic fraternity in the hope that these coins may again bring the great pleasure and delight to other informed numismatists that the Messrs. Stearns enjoyed.

CATALOGUERS NOTE

A special debt of gratitude is owed to the Museum of Fine Arts, Boston and to its Curator of Classical Arts, Dr. Cornelius Vermeule and its Keeper of Coins, Miss Mary B. Comstock for their many hours of invaluable assistance in the research and classification of this collection.

Our deep appreciation is also owed to Mr. Robert A. Vlack, author of several very important numismatic publications, whose unselfish time, research, descriptions and grading of the Massachusetts silver helped make this catalogue a reality.

PUBLIC AUCTION SALE

FIRST SESSION

To be held at the
PARKER HOUSE HOTEL, BOSTON, MASS.

FRIDAY EVENING, DECEMBER 2nd, 1966

AT 7:00 P. M. SHARP

Lots 1 - 294B

SOMMERS ISLAND (BERMUDA) COINAGE

Lot No. 1

- 1 **Sommers Island shilling, large sail.** Obverse legend fully legible mostly quite strong as is hog and "XII". Reverse features mostly very clear. Very light clip on edge. This large sail specimen must be among the **finest known**. Extremely rare and desirable as it is generally collected as the first coin of the U. S. Colonial series. 2,700.00

Lot No. 2

- 2 **Sommers Island six-pence, small portholes.** Obverse legend only partially legible, hog mostly clear, "VI" very clear. Ship, sails and portholes very clear for this rare variety. Probably among the finest extant small porthole six-pence. 1,000.00

NEW ENGLAND SHILLING

Lot No. 3

- 3 **New England Shilling**, obverse "NE", reverse "XII". The New England shilling was struck in 1652 by mint master John Hull per order of the General Court of Massachusetts. It is the first coin of those colonies which were to become the United States of America. This specimen is Variety III-A. **The only other type III-A specimen known is in the Massachusetts Historical Society collection.** There are probably not more than forty examples extant of all varieties of the New England shilling, most of which are in permanent collections. The importance of this specimen cannot be overestimated as this is probably the only time such a piece will be available for purchase. All but the very top of "NE" very strong, "XI" and left edge of second "I" very bold. 3,500.00

WILLOW TREE SILVER

"There are probably less than 40 examples of the Willow Tree shilling known, most of them being in permanent collections."

Lot No. 4

- 4 **Willow Tree Shilling**, 1652, Dies 1-A, Noe, "The New England and Willow Tree Coinages of Massachusetts", Plate III, #4. This is the actual specimen pictured in the above reference. Ex Smith Sale (1906). Unquestionable one of the most attractive Willow Tree shillings in existence and **the best of about 6 known.** 5,000.00

Lot No. 5

- 5 **Willow Tree Shilling, 1652**, Dies 1-A, Noe Plate III, #5. This appears to be the actual specimen pictured in Noe however it is much less worn and **more sharply struck** than the Noe plate suggests. This lovely grey specimen is just about **uncirculated**, showing highlights of a lighter frosty silvery color. The planchet is slightly saucer shaped. The tree is sharply struck and almost complete. The legend is much stronger and more nearly complete than the Noe photograph would indicate as is the date and other features. 4,500.00

Lot No. 6

- 6 **Willow Tree Shilling, 1652**, Dies 2-B, about the same condition as Noe Plate IV, #7 but tree and date a trifle weaker, legends about the same. Examples of Dies 2-B are characteristically very weak and extremely rare with about four known. 4,500.00

Lot No. 7

- 7 **Willow Tree Shilling, 1652**. Dies 3-C, trunk roots and lower left branches clear. About half of legend, both sides, clear. Suggestion of date, "X" clear, about eight known. 3,500.00

Lot No. 8

- 8 **Willow Tree Three Shilling, 1652**, Dies 3-C, the top half of some of the letters of the legend are missing as the planchet has been evenly clipped down but remains circular. Small neat hole in legend and probably worn as a charm against witchery during Puritan times. Roots, trunk and some branches reasonably clear. The very interesting diagnostic cross at top of tree very sharp and may be related to this specimen's possible use as a witch piece. The "X" is reasonably clear. Both legends are rather sharp for the piece 1,900.00

Lot No. 9

- 9 **Willow Tree Shilling, 1652**, Dies 3-E, legends, both sides, complete and very strong, sharper than the 2-E pictured in Noe. Tree weak with only small scattered sections clear. Numeral "1" of date reasonably clear, rest of date absent. This specimen appears rather handsome by reason of strong borders and very strong complete legends. 2,600.00

Lot No. 10

- 10 **Willow Tree Shilling, 1652**, Dies 3-E, clipped down, very neatly plugged at four o'clock reverse. The roots, trunk, some branches, and top, including cross, clear. "MASATH" clear. Reverse, top half of some letters missing because of clipping, however legend remains almost complete and quite strong. Inner border, "16" and "X" clear. 2,100.00

Lot No. 11

- 11 **Willow Tree Shilling, 1652, Dies 3-E, obverse legend complete and mostly very strong. Tree just about complete and strong in many places. Reverse legend beautifully complete and very pronounced. "1652" and "XII" strong and complete. Unquestionably the finest 2-E extant and far superior to any pictured in Noe.** 4,000.00

Lot No. 12

- 12 **Willow Tree Sixpence, 1652, choice about uncirculated. Almost fully round and superior to anything pictured in Noe. Most closely resembles Noe, Plate VII, #7 in striking. Unquestionably one of the finest Willow Tree sixpences in existence.** 5,000.00

The following list of Oak Tree Shillings has at least one example of every Noe variety.

Lot No. 13

- 13 **Oak Tree Shilling, N-1. Uneven planchet, clipped at bottom, edge fractured at top. Most of obverse legend clear as is top two thirds of tree. Most of reverse legend clear as is "1652" and "XII". This is the transitional variety from Willow to Oak Tree shilling. The "M" in the obverse legend is in the eleven o'clock position as on the Willow dies. Every serious collector of U. S. Colonial coins should own one example of this first transitional coin,** 300.00

OAK TREE SILVER

- 14 **Oak Tree Shilling, N-1.** Uneven planchet, edge fractured at upper left. About half of tree clear and almost half of obverse legend easily legible. Almost half of reverse legend easily legible. "1652" and "XII" very clear. **Another example of the transitional obverse and worth** 250.00
- 15 **Oak Tree Shilling, N-1.** Reverse die appears to be struck on a sixpence planchet. Small part of reverse legend shows. Most of "1652" clear and "XII" very sharp. Other side appears blank with barest suggestion of inner border beads. Rare. 150.00

Lot No. 16

- 16 **Oak Tree Shilling, N-2.** Transitional obverse die as N-1. This specimen is almost a duplicate of the N-2 pictured in Noe. The planchet is slightly oval shaped with the obverse a trifle weakly struck on the middle to lower right legend. There is a light planchet flaw on the reverse over the "AN" at eight thirty. The coin is at least a strong VF. **N-2 is the only Oak Tree with a rosette. It is almost impossible to obtain and this unusually choice specimen is worth** 500.00

Lot No. 17

- 17 **Oak Tree Shilling, N-3.** Transitional obverse die as N-1. This specimen is almost a duplicate of the N-3 pictured in Noe except that the Stearns example has a slightly larger and more impressive planchet. The obverse shows the die edges very clearly. **A rare and handsome example among the finest known.** 400.00
- 18 **Oak Tree Shilling, N-4.** Much of the obverse legend legible and strong. Tree clear except in upper quarter. Most of the reverse legend readable and very strong. "1652" and "XII" very pronounced, die edge clearly visible on obverse top. 300.00

OAK TREE SILVER

Lot No. 19

- 19 **Oak Tree Shilling**, N-4. This specimen is almost a duplicate of the N-4 pictured in Noe except the Stearns example has a slightly broader and more elongated planchet. Obverse legend extremely bold, Tree mostly sharp and clear. All reverse features are very strong and clear. 400.00
- 20 **Oak Tree Shilling**, N-5. Heavily clipped. Part of Tree and a few letters clear on obverse. "1652" and "XII" as well as lower half of much of legend very clear. 80.00
- 21 **Oak Tree Shilling**, N-5. Part of obverse legend clear. Tree obliterated by straightened creases, most of reverse quite sharp. Tiny hole at reverse bottom. This specimen is a typical witch piece worn to ward off the power of witches during the frenzy of 1692 in Salem and Boston. Easily worth 100.00
- 22 **Oak Tree Shilling**, N-5. Another typical witch piece but without hole. Larger planchet, sharper, and generally more attractive than the previous specimen. This is an interesting example of Americana which served both monetary and religious functions during Colonial times. 200.00
- 23 **Oak Tree Shilling**, N-5. Obverse legend struck mostly on planchet, strong and clear as is Tree. All of reverse bold and sharp. Concave dent on reverse results in wavy planchet. 300.00
- 24 **Oak Tree Shilling**, N-5. "ASATHVSET" on planchet and clear, tree weak. Die edge shows boldly at top, **all of reverse beautifully sharp.** 275.00

Lot No. 25

- 25 **Oak Tree Shilling**, N-5. Almost duplicate to the N-5 pictured in Noe. All features on both sides sharp and clear. **A choice about uncirculated specimen equal to the finest known.** 600.00

Lot No. 26

- 26 **Oak Tree Shilling, N-5.** Struck on a large elongated planchet. Die edge shows clearly at both top and bottom. **This may be unique. All features very sharp and clear. This must be one of the most impressive Oak Tree Shillings extant.**

500.00

Lot No. 27

- 27 **Oak Tree Shilling, N-6.** Struck on a planchet much larger than the N-6 pictured in Noe thereby enabling all of both legends to be included on the coin. **All features on both sides are sharp and bold.** Several of the die breaks tend into fine planchet fractures at right upper edge of reverse and left upper edge of obverse. On his envelope Mr. Stearns notes that this is "Crosby's own specimen". Originally two tiny museum type labels were affixed to the coin, one to each side. To-day only one remains on the reverse bearing the letter "D", Crosby's attribution. **This broad and impressive specimen is choice about uncirculated and definitely among the finest in existence.**

800.00

- 28 **Oak Tree Shilling, N-7.** Struck on characteristically small planchet. Top part of most letters in obverse legend struck off planchet. Legend legible to strong, inner border very strong. Reverse legend almost completely on planchet and very bold.

225.00

- 29 **Oak Tree Shilling, N-7.** Obverse faint, reverse mostly clear and legible. Coin smoother than usual. Hole at outer border.

65.00

- 30 **Oak Tree Shilling, N-8.** Struck on irregular oval planchet with small fracture at edge. More than half of obverse legend legible and reasonably strong. Tree mostly legible but weak. Reverse legend slightly stronger, "1652" weak, "XII" stronger. Planchet slightly pitted.

150.00

Lot No. 34

- 34 **Oak Tree Shilling**, N-8. A **handsome, uncirculated specimen**. Weakly struck at top obverse border and upper right reverse border. All features otherwise very clear and pleasing. **As choice as the N-8 pictured in Noe.** 450.00
- 35 **Oak Tree Shilling**, N-8. More than half of the legends strong and most of tree clear. Light fracture lower right reverse. Very good. 135.00
- 36 **Oak Tree Shilling**, N-9. Planchet clipped almost to sixpence size. "SAHUS" legible in obverse, tree faint. Small hole through inner border below right trunk of tree. "WE" legible on reverse legend as is "1652" although faint. Coin very well worn and finely pitted, rare. 80.00
- 37 **Oak Tree Shilling**, N-10. Called "weak tree variety", very clear on obverse, base of tree very faint. Most of reverse legend very clear. Holed in center of coin. **Very rare as only three specimens of N-10 available to Noe.** 125.00
- 38 **Oak Tree Shilling**, N-10. Obverse more sharply struck than N-10 pictured in Noe, tree and shrubs to right and left very clear. Reverse perhaps a trifle sharper than Noe plate coin. Tiny hole near edge at top between "LA". **This specimen was lot #22 in the Haines sale, Oct. 17, 1888.** 200.00
- 39 **Oak Tree Shilling**, N-10. Planchet clipped on obverse right side. Tree extremely strong as is legend. **All reverse features extremely strong.** Hole at nine o'clock, left obverse legend. 200.00

OAK TREE SILVER

Lot No. 40

- 40 **Oak Tree Shilling**, N-10. "HUSETS•IN" strong in obverse legend, "MASAT" faint. Inner border strong. Tree a trifle sharper than that of N-10 pictured in Noe. "DOM•NEWENG" strong and clear. Balance of reverse legend faint but a trifle sharper than that of N-10 in Noe. Nice even light gray patination and choice. 400.00

Lot No. 41

- 41 **Oak Tree Shilling**, N-11. Straight planchet clip at left obverse leaves the bottom half of "AS" showing. All the rest of obverse legend and tree as bold and sharp as the N-11 pictured in Noe. In the reverse legend just the very top of "A" in "AN•DOM" is missing. The balance of the reverse is as sharp as the N-11 pictured in Noe. An attractive steel grey. 400.00
- 42 **Oak Tree Shilling**, N-11. "MASATHUSETTS" clear and mostly very strong, tree very strong. "NEW ENGLAND•A" very clear on reverse, balance of legend legible but faint. "16" strong, "52" weak, "XII" very strong. Nice even grey and choice for this variety. 300.00
- 43 **Oak Tree Shilling**, N-11. Planchet slightly smaller than preceeding. All of obverse legend legible and mostly bold. Top halves of "S.IN" off planchet, tree very strong. Lot No. 50

- 50 **Oak Tree Shilling**, N-13. All obverse features extremely strong and clear. Large planchet. Slight indentation at bottom right obverse. **All reverse features strong and clear.** A nice specimen. 375.00

Lot No. 52

- 52 **Oak Tree Shilling, N-13.** Initial recutting of the Noe 13 prior to becoming Noe 14. The second "A" of "MASATHUSETS" has not been recut to touch the outer border bead as in Noe 13.6 or 14. A very rare transitional piece in very acceptable condition bordering on very good. 500.00

Lot No. 53

- 53 **Oak Tree Shilling, N-13.6** Second recutting of the Noe 13.3 with the obverse now like the Noe 14 but the "5" of the date still points downward whereas on the Noe 14 the "5" has been recut to point up. **Another rare transitional piece close to fine condition.** 500.00

- 55 **Oak Tree Shilling, N-14.** Planchet a trifle small so that a small part of "S•IN•MASA" is struck off coin. Obverse legend quite strong as is tree. Tops of "ENGLAND" just off planchet. All reverse features very strong. Very faint cross scratched on reverse. Planchet slightly wrinkled. 175.00

OAK TREE SIXPENCE

Lot No. 57

- 57 **Oak Tree Sixpence**, N-16. Struck on rather large planchet with tiny fracture on obverse right edge. More of all obverse and reverse features are included on planchet than in N-16 pictured in Noe. 300.00
